

How do I attach my logo/branding to the customer proposal or Easy PV project report?

To attach your Logo to the Easy PV Project Report navigate to **My Account** in the top right of the Easy PV home page and click on **Preferences**. Once in this menu, scroll down to the Company Logo section and click on the current logo image. You can then upload an image from your computer.

Please note that the logo will only appear on the quote page of the customer proposal report. Further customisation of the customer proposal is available with [Easy PV Pro](#), get in touch with us at help@easy-pv.co.uk if you're interested in a free trial!
