

# I've changed a component and it's not updated in the quote. Why is this?

If you changed the component *after* initially opening the financial task, you will need to **refresh the kit list**. Open the financial task and click the  icon in the top right and click *Recalculate cost of goods*.

If the component is a battery and it's still not showing up, make sure you haven't selected the *Exclude from shopping cart* rule on the battery:
