

New in March 2026

Updates

- [FinMatch loan integration](#) launched.
- GSE flexible flashing drip (500m) hidden.
- K2 mounting hidden from plain tile roofs.
- Warning when tariffs are less than 1p (UK).

Fixes

- Fixed financial task issues for projects with empty inputs.
- Fixed panel allocation issues when using PVGIS or NREL performance data.
- Fixed bug where first shading group wasn't created in panel allocation with optimised systems.
- Auto page breaks in customer proposal include custom header and footer and footer sizing now consistent throughout proposal.

Revision #3
