

Customer Proposal Customisation

With Easy PV Pro, you are able to customise the proposal document that you send to your customers. You have the option to:

- Add a custom cover page
- Customise colours to match your brand
- Add an 'About us' section to the contents page
- Configure a branded page footer to appear on all pages of the proposal document with your logo and company information
- Add your terms and conditions
- Add other important information about your services and the scope of work. This can be overwritten on a project-by-project basis.

If you want further customisation of the proposal or want us to create a document entirely to your own specification, please contact us about our **Enterprise package** on help@easy-pv.co.uk.

To make these customisations, navigate to **Pro account setting > Proposal**. There will also be an **Uploads** section in your Pro account settings where you can manage all the images you upload.

Colours

Select the colour you would like headers to appear in the proposal document.

Cover page

Select whether you would like to include a custom cover page.

If you don't already have a preferred way of making a cover page, you might find [Canva](#) useful. We have created a [template](#) with some additional instructions that you can use to create your own cover page design in Canva. When you are finished, click Share, then download, change the file type to PNG or JPG and download.

Here is an example of a custom cover page for our fictional SUNMAX company:

SUNMAX

Your Solar PV Proposal

Client name

House

Town

County

Country

Post code

Once you have your custom cover page, either add it in the **Uploads** tab or in the cover page section click **Select from uploaded images > Add images**. After uploading you will be able to select your cover page.

If you are having trouble selecting your image from your uploads, please contact support on help@easy-pv.co.uk.

Footer

In your custom footer you can input a phone number, address and website. You can also select the footer background and text colour and upload a logo.

Contents page

In this section you can add a custom cover letter and add an 'About us' section with a custom image. The 'About us' section should be a short description, make sure it does not overflow onto the next page of the proposal.

Here is an example of the footer and contents page customistations:

Customisable header colours

Your Solar Proposal

Custom cover letter

Thanks for choosing Midsummer Installations to provide a design for a solar PV system at House, Town, County, Country. We're delighted to supply the attached proposal for a 5.1 kW solar array.

We expect your system to generate 4,976 kWh of clean electricity every year, and save 904 kg CO2 of carbon.

There are full details on the following pages. We hope you enjoy the read!

Kind regards,

Daisy Kernick
