

Connecting to Midsummer

This guide applies to the easy-pv.co.uk and easy-pv.ie versions of Easy PV. The information provided here may not be accurate for easy-pv.com.

Connecting your Easy PV account to your Midsummer account will allow Easy PV to set its prices to match your wholesale prices. This means you do not have to make changes to your goods prices in the financial tab except for custom components and you can be confident your jobs are being priced correctly.

To connect your Midsummer account

1. Navigate to **My account > Preferences > Connect to Midsummer**.
2. Input your Midsummer email address and password and click 'Connect' to link your account.

Your browser may auto-fill with your **Easy PV** email and password, please ensure you are using your **Midsummer** details.

3. Your account will then refresh and your wholesale prices will apply.

For Easy PV Pro teams, each member will need to connect their wholesale account for discounts to apply.
